## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The prior art shows a slide ring with an axial leg (Morley) and a plurality recesses with an axial undercut in a leg (Zutz) to maintain an annular seal in position on the leg. The prior art fails to show the recesses to extend axially inward from a free axial end of the leg such that the recess has an end face and sidewalls. This arrangement prevents the sealing body from rotating with respect to the slide ring and from separating from leg during installation or service.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
